

Professional Summary

Pipeline and infrastructure developer for an architectural visualization studio: Python automation, render-farm deployment, and Windows administration. Focused on reliable, unattended automation: silent software deployment, scheduled-task orchestration, and git-based release workflows, alongside Microsoft 365/Azure administration. Background in technical art; shipped SMITE 2 at Hi-Rez Studios.

Core Skills

Infrastructure	Windows & Linux administration; Microsoft 365 & Azure; user/device management; remote access
Automation	Python, Bash, PowerShell; silent software deployment; scheduled-task orchestration; batch processing
Render Farm	Deployment and submission automation for 3ds Max render farms
Tools	Git, Perforce, Jira, Confluence, PyQt

Professional Experience

Jul 2026–Present	CGI Pipeline Developer , <i>MediaLab 3D Solutions</i> , Remote - Automated remote deployment of 3ds Max and production plugins across the studio's Windows render farm: silent, unattended installs with privilege-elevation handling - Leading the farm's migration to a modern render-management platform, porting deployment and submission tooling - Designed a Python scene-automation framework for scene preparation, diagnostics, and farm submission, accessible via CLI, PyQt desktop app, and native 3ds Max integration - Maintain the git-based packaging and deployment workflow that distributes tools to production
Jan–Jul 2026	MaxScript Specialist (Contract) , <i>MediaLab 3D Solutions</i> , Remote - Built MaxScript and Python automation for asset processing and repetitive scene operations in 3ds Max; converted to full-time pipeline developer role - Partnered with the team to identify automation opportunities and deliver maintainable tools
Nov 2025–Feb 2026	System Administrator (Contract) , <i>Yaggy Trucking</i> , Remote - Administered Microsoft 365 and Azure environments; managed remote access and user accounts - Automated installation processes and resolved IT issues across users and systems
Mar–Apr 2025	Technical Artist (Contract) , <i>Anuttacon via GoDemic</i> , Remote - Developed automated asset-processing tools in Python and MEL, iterating on feedback to improve usability and reliability - Wrote user documentation and incorporated stakeholder feedback to meet production needs
Nov 2024–Mar 2025	Technical Animator (Contract) , <i>Hi-Rez Studios</i> , Remote - Built Python and MaxScript automation for asset integration and deployment in an Unreal Engine 5 environment, eliminating manual setup and reducing deployment errors - Collaborated with Animation, Design, and QA to find bottlenecks and automate milestone-delivery steps
Jun 2023–Oct 2024	Associate Technical Animator , <i>Hi-Rez Studios</i> , Alpharetta, GA - Shipped SMITE 2 as part of the technical animation team: character rigging alongside the Python/MaxScript tooling that supported the asset pipeline - Developed automated batch-processing tools in Python and MaxScript, cutting manual asset-processing time by 25% and improving pipeline reliability - Built automated asset-migration pipelines across engine versions, keeping assets compatible and reducing integration errors - Wrote documentation and runbooks for automated processes to support team scaling and knowledge transfer

Education

May 2023	BFA, Animation and Game Design , <i>Cleveland Institute of Art</i> , Cleveland, OH Senior Project: Cinematic story driven game
